

## **WHAT'S WATER REUSE ALL ABOUT?**

Peter Cartwright, Cartwright Consulting [pscartwright@mn.rr.com](mailto:pscartwright@mn.rr.com)  
952-854-4911

The concept of reclaiming our used water is rapidly becoming a reality. Driven by a critical shortage of water in certain areas, declining water quality worldwide, and increasing water quality requirements, the global community has few options. This paper describes the problems, addresses solutions, and details the technologies that make water reuse a reality.
