

Biographically Sketch Richard Nixdorf

Mr. Nixdorf is currently the President and CEO of Industrial Ceramic Solutions, LLC, a manufacturer and developer of ceramic fiber filter systems. He has been involved in the development of advanced ceramic materials and products for 30 years, taking over 30 new materials ideas to commercial production. Nixdorf previously served as President & CEO of CerWat Corporation and ReMaxCo Technologies. He began his career in materials research at the Oak Ridge Nuclear Facilities and continues to use the ORNL "High Temperature Materials Laboratory" for materials evaluations. Nixdorf is named as the inventor on 10 U.S. Patents. He received a BS degree in Material Science from Vanderbilt University and did graduate work at the University of Tennessee.
